

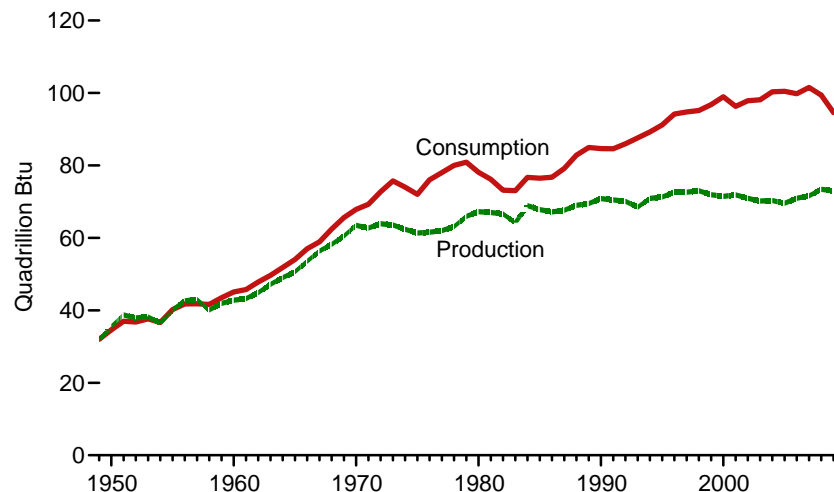

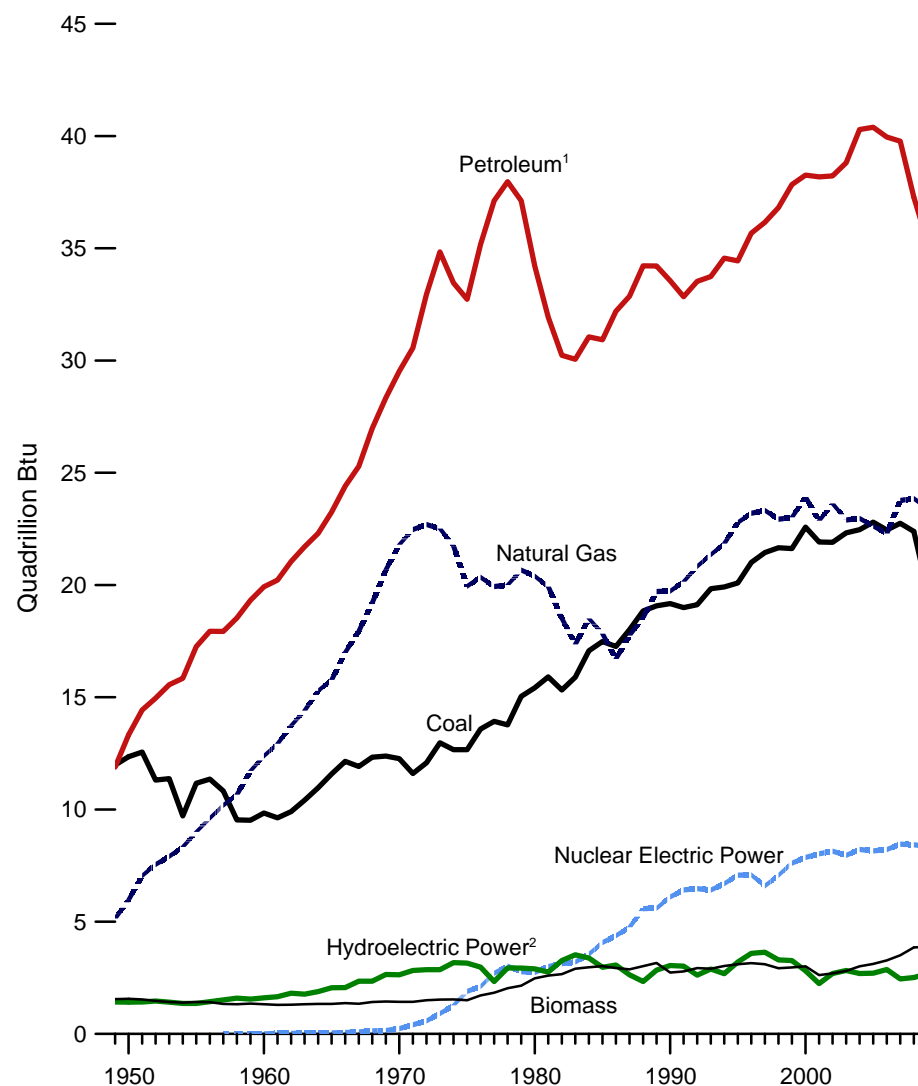

**Figure 1.3 Primary Energy Consumption by Source**

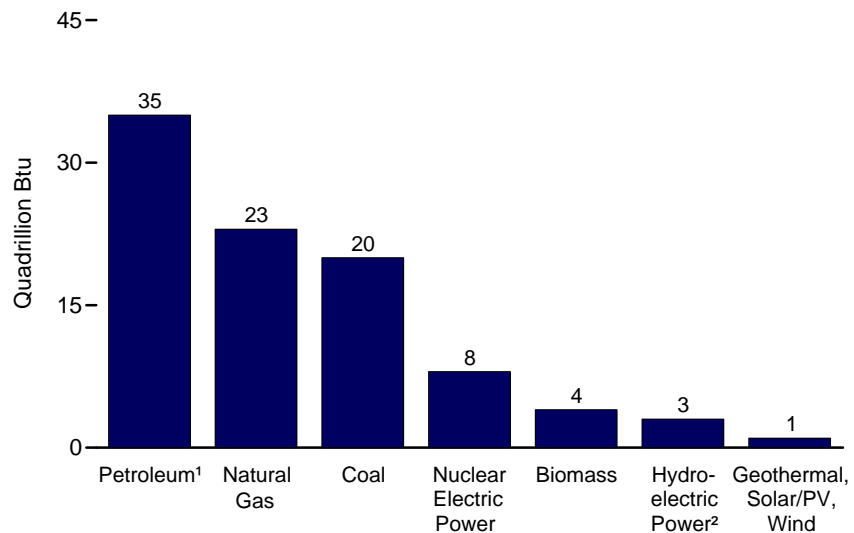

**Production and Consumption, 1949-2009**

**By Major Source, 1949-2009**

**By Source, 2009**

<sup>1</sup> Petroleum products supplied, including natural gas plant liquids and crude oil burned as fuel. Does not include biofuels that have been blended with petroleum—biofuels are included in "Biomass."

<sup>2</sup> Conventional hydroelectric power. Sources: Tables 1.2 and 1.3.
